

English-to-Kiswahili translation services

Edward Mathew · 30 September 2026

REVIEW SAMPLE — not approved for submission; translation examples require Edward's personal review.

Consultant profile

I am Tanzanian and a native Kiswahili speaker. I taught English online at Active Age Language Institution in Voronezh, Russia, from June 2022 to May 2024. I also chose to study Russian language and literature, reflecting my interest in working across languages. I would bring my native Kiswahili and familiarity with Tanzanian usage to community learning materials intended for Tanzania.

Email: Provided in final PDF **Phone:** Provided in final PDF

Financial quotation

Service	Rate per English source word
Direct English-to-Kiswahili translation	US \$0.08
Machine-translation quality assurance to publication-ready Kiswahili	US \$0.06

English source words counted in Microsoft Word or an equivalent tool; punctuation excluded. The scope and word count of each assignment would be confirmed in its work order.

Method and delivery

1. Confirm the audience, intended meaning and any terminology preferred by RTV.
2. Translate or review each passage against the English source, adapting wording where a literal version would be unclear to Tanzanian readers.
3. Check terminology, grammar, numbers, names, completeness and natural flow.
4. Submit editable Word files and a tracker for questions or changes where requested; incorporate consolidated RTV feedback.

I can plan delivery against the TOR's four-week translation and two-week machine-translation review windows, with volume and milestones agreed for each work order.

Evidence enclosed in this review sample

The following page contains two new illustrative translations on community training themes. They are proposed samples for assessment, **not previous client commissions**. My documented professional language work is English teaching; any previous translation work or professional references should be added here if available.

Two proposed Kiswahili samples

Original English practice text prepared for this application. Kiswahili wording must be reviewed and approved by Edward before use. These examples do not establish prior paid translation experience.

Sample 1 · Community savings record

ENGLISH SOURCE

A savings group should record every contribution on the day it is received. At the end of each meeting, members should check the total together and agree on any corrections before closing the record.

DRAFT KISWAHILI

Kikundi cha akiba kinapaswa kurekodi kila mchango siku unapopokelewa. Mwishoni mwa kila mkutano, wanachama wanapaswa kukagua jumla kwa pamoja na kukubaliana kuhusu marekebisho yoyote kabla ya kufunga kumbukumbu.

Sample 2 · Farming and market decisions

ENGLISH SOURCE

Before choosing a crop to sell, farmers should compare expected demand, transport costs and the prices offered by different buyers. A higher selling price does not always mean a higher profit.

DRAFT KISWAHILI

Kabla ya kuchagua zao la kuuza, wakulima wanapaswa kulinganisha mahitaji yanayotarajiwa, gharama za usafirishaji na bei zinazotolewa na wanunuzi mbalimbali. Bei ya juu ya kuuza haimaanishi kila mara faida kubwa zaidi.

Still needed before submission

The TOR lists proof of professional English-to-Kiswahili translation experience as mandatory and asks for two similar references or samples. Edward should personally check these Kiswahili examples and provide any genuine prior translation work or references he wants included. Business or tax registration evidence is included only if applicable to him as an individual.
